# Contents

**Volume 24, Number 1** **1984**

ARTICLES

A Monoclonal Antibody Recognizes an Epitope Common to an Avian-Specific Nuclear Antigen and to Cytokeratins, **Richard M. Franklin, Lyman R. Emmons, Rebecca P. Emmons, Osamu Kai, Anna Oommen, J. Richard Pink, Anne-Marie Rijnbeek, Marianne Schnetzler, Leena Tuderman, and Eeva Vainio** . . . 1

Modulation by Retinyl Acetate of Microfilament Bundle Formation in C3H/10T1/2 Cells, **Lawrence J. Mordan, Sek-Wen Hui, and John S. Bertram** . . . . . 15

Differential Protein Insertion Into Developing Photosynthetic Membrane Regions of Rhodopseudomonas sphaeroides, **Gordon S. Inamine, Patricia A. Reilly, and Robert A. Niederman** . . . . . 69

Release and Purification of Trypanosoma brucei Variant Surface Glycoprotein, **George A.M. Cross** . . . . . 79

Genetic Control of Resistance to Murine Malaria, **Mary Stevenson, Suzanne Lemieux, and Emil Skamene** . . . . . 91

INVITED REVIEWS

The Ubiquitin-Mediated Proteolytic Pathway and Mechanisms of Energy-Dependent Intracellular Protein Degradation, **Aaron Ciechanover, Daniel Finley, and Alexander Varshavsky** . . . . . 27

The Chloroplast Envelope: Is It Homologous With the Double Membranes of Mitochondria and Gram-Negative Bacteria? **Kenneth Keegstra, Margaret Werner-Washburne, Kenneth Cline, and Jaen Andrews** . . . . . 55

**Volume 24, Number 2** **1984**

ARTICLES

Characterization of Isolates and Clones of Leishmania by Analysis of Kinetoplast DNA, **Terry W. Spithill, Raelene J. Grumont, and Graham F. Mitchell** . . . . . 103

A Distinct Signal Peptidase for Prolipoprotein in Escherichia coli, **Masao Tokunaga, Judith M. Loranger, and Henry C. Wu** . . . . . 113

ATP-Released Large Subunits Participate in the Assembly of RuBP Carboxylase, **Patrice Milos and Harry Roy** . . . . . 153

Adaptive Reorganization of Protein and Lipid Components in Chloroplast Membranes as Associated With Herbicide Binding, **Autar K. Mattoo, Judith B. St. John, and**

**William P. Wergin** . . . . . 163

The Effect of Phenformin and Other Adenosine Triphosphate (ATP)-Lowering Agents on Insulin Binding to IM-9 Human Cultured Lymphocytes, **Riccardo Vigneri, Betty Maddux, and Ira D. Goldfine** . . . . . 177

Fate of Surface Immunoglobulin During Induction of Lymphocyte Proliferation, **Madduri Ramanadham, Sastry V.S. Gollapudi, and Milton Kern** . . . . . 187

## INVITED REVIEWS

Golgi/Granule Processing of Peptide Hormone and Neuropeptide Precursors: A Minireview, **Donald F. Steiner, Kevin Docherty, and Raymond Carroll** . . . . . 121

Synthesis, Processing, and Secretion of Hepatic Very Low Density Lipoprotein, **David R. Janero, Patricia Siuta-Mangano, Kurt W. Miller, and M. Daniel Lane** . . . 131

## Volume 24, Number 3 1984

## ARTICLES

Hepatocyte Receptors for Antithrombin III-Proteinase Complexes, **Herbert E. Fuchs, Mark A. Shifman, George Michalopoulos, and Salvatore V. Pizzo** . . . . . 197

A Model for the Structure of Fumarate Reductase in the Cytoplasmic Membrane of Escherichia coli, **Joel H. Weiner, Bernard D. Lemire, Robert W. Jones, Wayne F. Anderson, and Douglas G. Scraba** . . . . . 207

Linker Mutagenesis in the Gene of an Outer Membrane Protein of Escherichia coli, LamB, **B. Bouges-Bocquet, H. Villarroya, and M. Hofnung** . . . . . 217

Mitochondrial Membrane Biogenesis: Characterization and Use of Pet Mutants to Clone the Nuclear Gene Coding for Subunit V of Yeast Cytochrome *c* Oxidase, **Joan E. McEwen, Michael G. Cumsky, Christine Ko, Scott D. Power, and Robert O. Poyton** . . . . . 229

Herbicide-Quinone Competition in the Acceptor Complex of Photosynthetic Reaction Centers From Rhodopseudomonas sphaeroides: A Bacterial Model for PS-II-Herbicide Activity in Plants, **Randall R. Stein, Alicia L. Castellvi, Jerome P. Bogacz, and Colin A. Wraight** . . . . . 243

Light Regulation of Photosynthetic Membrane Structure, Organization, and Function, **Anastasios Melis** . . . . . 271

The Role of Duplication in the Expression of a Variable Surface Glycoprotein Gene of Trypanosoma brucei, **John R. Young, Mervyn J. Turner, and Richard O. Williams** . . . 287

The Detergent Solubility Properties of a Malarial (Plasmodium knowlesi) Variant Antigen Expressed on the Surface of Infected Erythrocytes, **Russell J. Howard and John W. Barnwell** . . . . . 297

## INVITED REVIEW

Correlation of Structure and Function of Chloroplast Membranes at the Supramolecular Level, **L. Andrew Staehelin and Marcia DeWit** . . . . . 261

**Volume 24, Number 4** **1984**

## ARTICLES

Rat Liver Membrane Secretory Component Is Larger Than Free Secretory Component in Bile: Evidence for Proteolytic Conversion of Membrane Form to Free Form, **Thomas M. Kloppel and William R. Brown** . . . . . 307

Detergent Dissociation of Bovine Liver Phosphomannosyl Binding Protein, **Diane C. Mitchell, Thomas Maler, and George W. Jourdian** . . . . . 319

Secretion and Degradation of Mutant Leucine-Specific Binding Protein Molecules Containing C-terminal Deletions, **Robert Landick, James R. Duncan, Bruce R. Copeland, Penelope M. Nazos, and Dale L. Oxender** . . . . . 331

Effect of Extraction Time on Ability of Calmodulin to Activate 30S and 14S Dynein ATPases, **Jacob J. Blum and Alvernon Hayes** . . . . . 373

Inhibition of Erythrocyte Membrane Shape Change by Band 3 Cytoplasmic Fragment, **David P. Carter and Grant Fairbanks** . . . . . 385

Stimulation by Glutamine of the Formation of $N^6$-Hydroxylysine in a Cell-Free Extract From Aerobacter aerogenes 62-1, **G.E.D. Jackson, M.A. Parniak, G.J. Murray, and T. Viswanatha** . . . . . 395

## INVITED REVIEWS

Role of Membrane Potential in Protein Folding and Domain Formation During Secretion in Escherichia coli, **Bruce R. Copeland, Robert Landick, Penelope M. Nazos, and Dale L. Oxender** . . . . . 345

The Natural Heterogeneity of Trypanosoma cruzi: Biological and Medical Implications, **James A. Dvorak** . . . . . 357

**Author Index to Volume 24** . . . . . 405

**Subject Index to Volume 24** . . . . . 407
